All is confusion, and no correct statement of the loss of life can yet be made. The flames are still burning in the interior of the building, of which nothing

DETAILS OF THE DISASTER. GOSTON, June 21st.-There were man men inside when the fire broke out, and all rushed for the rear windows. Most of them were helped out, but while a rush was be-ing made to one of the windows at which a scorched and bleeding face was seen, the person who had been looking out fell back into the seething mass, and was past all help. A colored man, name unknown, went back into the burning building to save some property, and was not seen to come out again. Chester L. Hazletine and E. L. Farren had plenty of opportunity to escape, but endeavored to pull out some cars, and were frightfully burned. While usands of spectators were viewing from the neighboring roofs the magnificent spectacle, a horrible tragedy was being enacted within, although out of sight and unknown to the throng. After the flames had been sufficiently extinguished search was begun among the charged ruins for possible victins and up

charred ruins for possible victims, and up to 9 p. m. eight dead bodies had been re oved, most of them burned beyond reco ition. It is believed that there are at least four more bodies in the rains. Inside the building were 400 norse cars, fully repaired, each worth \$700. The repairs and refurnishing of the building amounted to

about \$50,000. The total loss is about \$400,000. The burning of the vast building was one of the grandest sights seen in this was one of the grandest sights seen in this city since the great fire of 1872. The wind blew freshly, and added much power to the flames as they rapidly swept from one part of the building to another.

NEW YORK, June 21st .- The Mail Express says: When the great colt Ban Fox won the Coney Island Derby Saturday he doubtless convinced all turf critics of his general superiority. The victory was another vindication of the opinions expressed in this column of the great superiority of western three-year-olds, Ban Fox and Ben Ali especially. Haggin and his friends backed Ban Fox so heavily that the colt became a tremendous favorite in the books. He won the contest like a race horse, and the time made over the mile and a half is better than can be done under the same conditions by any three-year-old in the East. Ban Fox could have run the

race two seconds faster if any co't had been able to push him. He won in a good strong gallop, and the followers of Haggin's stable were full of joy. NEW YORK, June 21st .- The Sun yesterday printed two columns descriptive of James C. Flood's mansion, taken from San Francisco newspapers, and said, editorially The millionaire of the Pacific conceives that two alternatives are presented to him
—to build himself a palace or to move to

New York. In some instances he does both. When he moves, his place on the slope will assume the aspect of a hostage offered to the State of California in mitigalent Californians. California Wines. New York, June 21st.—Bonford's Wine Circular says: The arrival of California wines by the Pacific Mail steamships during May amounted to 37,769 gallons, against 116,360 gallons and 52,156 gallons in the same months of 1885 and 1884. The totals for the first five months of this year amounted to 340,201 gallons. Last year in the same time 456 999 gallons arrived, and in 1884 490,516 gallons. Of brandies, th arrivals during the month were 3,228 gallons, as against 7,865 gallons last May. Since the first of the year a total of 6,179 gallons has been received. Last year in the same time 4,734 gallons arrived.

The following statement shows the arrival of California wines by rail in March, 1886, during which month freight cutting prevailed: From San Francisco, 10,484,800 pounds; from Los Angeles, 2,061,700 pounds; from Sacramento, 879,900 pounds; from Stockton and Marysville, 168,600 pounds. Total, 13,595,000 pounds. The Pennsylvania Mineral Discovery.

PHILADELPHIA, June 21st .- The Press Huntington special says: The alleged discovery of gold and silver on Jacks mount ains at Mapleton, this county, by Jacob Zillions, a German miner of this city, is creating much excitement. Mapleton is a small town on the main line of the Pennsylvania Railroad, eight miles east of Huntington. An old Colorado miner, a practical assayer, has erected an assay urnace near the mountain, and has made ore to be worth from \$600 to \$650 per ton. The excitement over the discovery is intense. Persons can be seen every day climbing up the mountain to the shaft, carrying away samples of the ore. A large delegation of newspaper men, lawyers merchants and capitalists visit the spot to make a personal inspection of the land.

Caucus of Tariff Men. Washington, June 21st .- The Repre vote was a fair test, and that no tariff legis-lation can be accomplished this session, and are inclined to favor an indefinite postponement of the question. There is, strong opposition to assisting Randall with his compromise measure, which, it is alleged, he will introduce after Morrison's bill has been rejected a second time. The Government and the Railroads.

Washington, June 21st .- Some time ago washington, Johe 21st.—Some time ago the Secretary of the Interior made a state— ment to the Secretary of the Treasury in regard to the indebtedness of the Central and Union Pacific Railroad Companies to the United States, under the provisions of the Thurman Act, on account of moneys which had been diverted from the earnings of those companies to the Pacific Mail Steamship Company in the form of a subsidy paid to that company. The Secretary of the Interior expressed the opinion that the railroad companies were indebted to the United States in an amount equal to 200 per cent. of the earnings thus diverted. The amount thus due from the Central Pacific Railroad Company is stated at \$498,-187, and from the Union Pacific Railroad ompany-at \$354,224. The Second Comproller of the Treasury, to whom the mat-er was referred, has made a report to acting Secretary Fairchild, that the Central Pacific Company, so far as examined, show that there is due it, for the years 1884 and 1885, for services over unsubsidized porions of the road, under a recent decision of the Supreme Court, several hundred tion of his secession. We have profited thousand dollars. He calls attention to the largely in New York by our acquisition of Act of March, 3, 1875, which he says seems to require the Secretary of the Treasury when called upon to pay claims due sub sidized railroad companies, to withhold an amount equal to the amount of the indebtedness of the companies to the United States, and also the probable cost of estab-lishing that indebtedness in a suit at law,

and in case the company does not assent to settle, to cause suit to be brought, and to withold payment until the suit is decided. The Comptroller recommends this course o be pursued. The President and the Veto Power. WASHINGTON, June 21st .- The freedor with which President Cleveland exercises he veto power reminds old-timers Washington of the days of Andrew John-son. To-day fifteen veto messages were sent from the White House to the Capitol Two of the bills vetoed were for the erec tion of public buildings—one at Zanesville, Ohio, and the other at Sioux City, Iowa. All the rest were private pension bills. In a message to the Senate relating to one of those bills, the President says that more than 600 private pension bills have been passed by this Congress, being three times as many as by any prayious Congress. One as many as by any previous Congress. One hundred and thirty are now awaiting his action, and he says many of these must become operative because he cannot have time to examine them. In matters of veto, Mr. Cleveland has broken the record. During his incumbency he has sent more such messages to Congress than any of his pre-

decessors in the same time. Democratic Insincerity. Washington, June 21st .- Last week the Democrats in the House soundly abused the Republicans, because, when they were in power, they did not build ships of war to keep the United States navy up to par. to keep the United States navy up to par. Their insincerity was shown to-day, when, on a strict party line, they voted down, by 99 to 131. the motion of Mr. Goff, of West Virginia, to recommit the naval appropriation bill, with instructions to insert a clause providing for the building of the monitor recommended some time ago by the Naval Committee. The railroad construction Superintend-ents are troubled a good deal with the white hands they have been employing lately, most of them working only a day or two after being passed up over the road from below, otherwise the work would go on faster. The company are therefore compelled to depend mainly on their Chinese hands, and are bringing up all the Chinamen that can be engaged anywhere on the coast, to put the road through speedily. The grading had been completed for a long distance above the end of the present terminus at Gibson's, and if the bridges are built as speedily above Southern's as below, it will not be long before trains can run up

completed to Sim Southern's (Hazel Creek) by the 1st of July, to which point passen-gers and express matter will be delivered and received, thereby reducing the distance between railroads to 110 miles. This will leave only about nine or ten miles more road building to reach Bailey's, which point, it is claimed, will be reached by An-gust 1st. After leaving Bailey's the work will be in Siskiyon, as Bailey's is close to the county line.- Yreka Journal.

"By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Epps has provided our breakfast tables with a delicately-flavored beverage which may save us many doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame."—[Civil Service Gazette.

TAKE GREAT PLEASURE IN REFERRING AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE. CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however, prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine, will not require any aid to keep the bowels in good order. Should the patient, however, equire a cathartic medicine, after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other.

We have this day made arrangements with the Manufacturers of the world-famed GARLAND"

RANGES AND STOYES!

Whereby we are enabled to offer the "CARLANDS" for the Coming Fall Trade, at prices lower than that asked for the many different Cheap STOVES AND RANGES now sold in this market. Don't pay \$28 for a Cheap Light Range, when you can buy a No. 7 "GARLAND" RANGE, complete with 36 Pieces of Furniture, and delivered at your door, free of freight, at the same price. The "GARLAND" is conceded by all to be the Leading RANGE in America. Every STATE FAIR in the Union has given it Highest Award and Special Diploma. At the World's Fair at

New Orleans, where 170 odd Manufacturers exhibited their goods, the "Garland" was awarded the Gold Medal and Blue Ribbon over all. If you want a Stove or Range, you want the best, as a good Stove is a thing that will last a lifetime (that is, providing you don't live too long); therefore, one should look to the merits of a Stove or Range before purchasing. We claim the following improvements in the "Garland" that no other Range has or can have, as they are patented:

FIRST-It burns the least Wood or Coal of any Range made. SECOND—It weighs 100 ths. more than any Range of the same size. THIRD-The flues are large, thereby preventing the Stove of FOURTH—The "GARLAND" is undoubtedly the quickest baker in the market; it is the only Range with Patent Broiler

Attachment; the oven top is double, which prevents it from There are many other improvements this Range has, but we will content ourselves by saying the best is the cheapest; that being a fact, the "GARLAND" is is the cheapest; that being a fact, the "GARLAND" is the best. LOCAL INTELLIGENCE.

The Invitation Committee on the celebration of the national anniversary met again last evening, Judge Henry presiding. ceived from the State Treasurer and Secretary of State. Sub-committees reported the acceptance of the Pioneers, Hussars. Odd Fellows' Battalion, all the city and county officers, Chief of Police Dillman and force, the inmates of the Orphan Asylum, G. J. Cross, as a veteran of the war with Mexico, with two flags. Other yet. Secretary Ingram reported acceptances rewith Mexico, with two flags. Other veterans reported that they were to parade with other organizations. A committee from the Caledonians appeared and stated that their club would turn out in full high-land costume, a delegation in sashes, and delegations also in carriages. But the committee added that the music necessary would cost the club \$50. Half of this the club would pay, but desired the General Committee to aid them to the other half. In support of the request, they said that last year the committee, feeling unable to contribute half the expense of securing pipers, who have to be brought from San Francisco, the club was unable to appear and thereupon contributed \$25 to the Gen eral Committee, Under the circumstance they hoped the committee would be able to assist the club this year, otherwise it would scarcely feel able to turn out. It was and the decision of the lower Court was ports of progress were made regarding the Typographical Union and Pressmen's Association and other organizations and the Supreme Court was granted, but with the same result. The McCurdy Case.

Some weeks since the RECORD-UNION gave a detailed statement of the murder of Charles Freher, in Lake county on July 14, 1884. A one-armed man by the name of McCurdy was arrested and convicted of the murder, and was sentenced to be hanged some time since. He was reprieved until the 2d of July next one week from next Friday—to enable his attorneys to present facts to the Governor which would show grave doubts of his guilt and pointing to the twin brother of the de-ceased as the one guilty of the deed. The brother of the deceased, Frederick Freher, yesterday appeared before the Governor, and was also represented by R. M. Clarken, of this city, and asked that the commutation asked for—imprisonment for life—be not granted. They reviewed the testimony given at the trial, and claimed that there were no grounds for Executive interference. The Governor has not intimated what he will do in the premises.

THROWN FROM HIS BUGGY .- Last evening about 8:30, as Dr. G. A. White, Superintendent of the County Hospital, was returning to that institution from the city in his buggy, accompanied by W. H. Coker, the horse became frightened at some material on L street, above Tenth, and, the doctor pulling aside, the animal swerved so sud denly that the vehicle was upset and its occupants thrown out. Coker was no hurt, but Dr. White received a severe injury to his right hip. A hack was pro-cured, in which he was conveyed to the Hospital. The buggy was badly damaged.

the jury brought in a verdict of murder in the first degree without a recommendation

which was headed as follows:

George Stoneman, Governor: We, the undersigned citizens of the counties of Amador and San Joaquin, most respectfully request your Excellency to commute the sentence of Uzza F. French, who was convicted of murder in the first degree by the Superior Court of San Joaquin county on the — day of ——, 1885, and by said Court sentenced to suffer death; and we ask that such sentence be commuted to that of imprisonment for life for the following reasons:

dire to be understood as intimating that the ury did wrong in not specifying the penalty, nor that they are mistaken as to any mitigating direumstances, or that the defendant does not leserve death; but I do want to say, distinctly, that under all the circumstances of the case I would have fixed the penalty at imprisonment for life if I had had the power so to do, would do so to-day if I could, and hope that your Excellency will see your way clear to commute the sentence as prayed for, and I shall ever remain, your humble servant. A. Van R. Pattersson.

W. J. McGee, District Attorney of Amer.

W. J. McGee, District Attorney of Ama-

dor county, by order of the Board of Su-pervisors of that county, appeared before the Governor in opposition to the granting of the commutation. His argument was

calm, clear, pointed, and to the effect that even-handed justice should be dealt out alike to the dead and the living. The killing of Wells in Oleta, or Fiddletown, as it

was formerly called, was beyond any ques-tion of doubt a cold-blooded, premeditated

unprovoked and willful murder. He did not appear before the Governor asking that the hand of the executioner should be permitted to do its work through malice or a desire for revenge.

His position was unfortunate; he had a duty to perform. French had received all the mercy that he could reasonably ex-

partial trial before a jury of his peers; he had been found guilty as charged; had been sentenced to be hanged, and the de-

cree of the Court should be executed. No mercy had been shown Wells, when he begged French not to shoot. He was shot

First—That said French is now old and a cripple for life.

Second—That we do not believe that the evidence in the case justified the infliction of the death penalty.

Third—That the jury who rendered the verdict in the case rendered a verdict of "guilty of murder in the first degree;" and we are now informed that the jury were not aware of the effect of their verdict; that is, that by rendering said verdict that the defendant must be hanged; but that when rendering said verdict the jury thought that the Court had the power to sentence the defendant to imprisonment for life, and that it was under such misapprehension that the verdict was rendered.

SACRAMENTO GENERAL COMMITTEE, G. A. R. SACRAMENTO, June 19, 1886.

DEAR SIR: You are respectfully requested to act with the Committee on Invitation and Reception on the occasion of Sacramento Day, G. A. R., August 11th. A meeting will be held on Tuesday evening, June 22, 1886, at 8 o'clock, in the pariors of the Golden Eagle Hotel. Your attendance is particularly desired. Respectfully.

Jos. Steffens, new trial, I regretted that under the law the Court had no discretion as to the penalty which should be imposed on the verdict, which was ilent as to the penalty. I stated then that in he event of an affirmance of the judgment by he Supreme Court, I should give him (French) he benefit of the then condition of my mind by stating the fact to the Governor. I now begeave to fulfill my promise, and to say further hat I have never changed my opinion, either is to what discretion the law ought to clothe he Court with in such cases, nor as to how the Court would have exercised it under all the circumstances in this particular case. I do not decire to be understood as intimating that the ury did wrong in not specifying the penalty, Member of General Committee

attendance is particularly desired. Respectfully.

Jos. Steffens.

How Our Clothing is Made and Why

permanently.

HE advantages we offer to Clothing Buyers are telling and important. They arise in part from our ability to get the best the country affords, and from the determination to so suit customers as to have their trade

One of the first questions which buyers ask about clothing is, "How will it wear?" The point is a vital one. Much hinges upon it. Clothing that falls short in quality is costly at any price. It is true, it is hard ofttimes to detect poor clothing. When new it's likely to be so ironed and pressed into shape as to look better than it really is. How is the buyer to know how it will wear and keep shape after the first newness has worn off? How is he to tell whether, like a well built-house, it is thoroughly stayed in those parts which are closed to the eye? He can't, except by buy-ing and wearing. With most people Clothing is too costly an item of dress to experiment

it Pays to Give it the Preference.

Unlike most dealers we have nearly all our Clothing made to order. We pick out our manufacturers. We pick out our cloths. We say how this kind of suit is to be made and how that. If when the coats, pants or whatever they may be, are done, they are not up to the standard of excellence, back they go to the makers. People look to us for the best goods and we cannot afford to keep anything

In point of price our Clothing will be found, quality considered, always as low, and, in most cases, lower than that of other dealers.

In point of style and fit it ranks second to none, many of the leading manufacturers of the country being engaged upon our work.

This season our stock of all kinds of Clothing is unusually large, and we are sure it will pay anyone in need of goods in this line to at least see what we have.

Ayer's Sarsaparilla

Leading physicians endorse it as the best blood purifier known; There is a great annual increase in the de-Mand for it;

Voluntary testimonials as to its efficacy are constantly offered in great numbers, by persons whom it has cured of diseases born of corrupted blood, even hereditary ones, and those of many years standing.

TO THE UNFORTUNATE DR. GIBBON'S DISPENSARY,

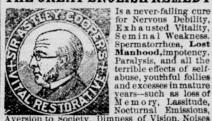

ual indulgence is practiced by the youth of both sexes to an almost unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combated by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a distlike to form new acquaintances, disposition to shun society, loss of memory, hectic flushes, pimples and various cruptions about the face, furred tongue, footid breath, coughs, consumption, night sweats, monomania and frequently insanity. CURED AT HOME. Persons at a distance may be cured at home by addressing a letter to DR. GIBBON, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded free from damage and curiosity, to any part of the country, with full and plain directions. By inclosing ten dollars in registered letter, through the Postoffice, or through Wells, Fargo & Co., a package of medicine will be forwarded to any part of the Union. The Doctor cures when others fail. Try him. Meution the RECORD-UNION. Address
